

Community Development

Our goal is to *improve the quality of life for our families* here in Central City New Orleans. Community Development accomplishes this through **affordable housing, job-training, and financial education**.

Pre-Katrina 80% of our community was renter occupied. We believe home-ownership provides stability for families, and the neighborhood. Job training and financial education increase a families chance of purchasing their own home.

Our partnerships with the Hoffman Triangle Neighborhood Association , Castle Rock Community Church, Bridge Project (job training), and CrossRoads Mission (affordable housing) make our goals attainable.

Community Development is one part of a holistic approach to creating a neighborhood where kids can ride their bikes. For more information contact Michael Robinson at 504-523-5556 or email michaelr@urbanimpact.org.
